

Appendix 3: Sustainable Finance Disclosure Regulation (SFDR) disclosure

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the “Fund”)**

Legal entity identifier: **222100I2U5PFCXI5XS34**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The Fund promoted the following environmental and/or social (E/S) characteristics:

- Management of a Weighted Average Carbon Intensity (WACI) for its investments in corporate issuers that is generally at least 30% lower than the MSCI ACWI Index ('Index'), and
- At time of purchase exclusions on corporate issuers, with respect to certain sectors such as tobacco, fossil fuel and weapons, as well as companies violating the principles of the United Nations Global Compact (UNGC).

The companies in which investments were made followed good governance practices.

The Fund adopted Article 8 status as per Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), as amended, on 1 December 2023. From this date, the Fund applies both the carbon constraint (WACI) and a Negative Screening Policy as described above. Since adoption, at least 90% of the Fund's investments (excluding cash, cash equivalents and/or money market funds), at the time of purchase, were selected based on the E/S characteristics.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the “Fund”)** Legal entity identifier: **222100I2U5PFCX15XS34**

● **How did the sustainability indicators perform?**

The following sustainability indicators have been used to measure the attainment of the E/S characteristics promoted by the Fund:

Sustainability indicator	Results
WACI of the corporate issuers compared to Index ^{1,2}	36% below Index
Percentage of the Fund's investment that complied with the exclusion list [at the time of purchase] ³	100%

Since adoption of Article 8 status, the Fund has applied and maintained a carbon constraint (WACI) of at least 30% below the Index and applied the Negative Screening Policy. In accordance with the Negative Screening Policy, if a previously eligible issuer held in the Fund subsequently fails an appropriate screen, the issuer will not contribute towards the environmental and/or social characteristics of the Fund and will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

● **...and compared to previous periods?**

Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

¹ As at 31 December 2023

² Data coverage for the Fund is 99.6%

³ Calculation excludes cash and/or cash equivalents

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the “Fund”)**

Legal entity identifier: **222100I2U5PFCXI5XS34**

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Fund considered principal adverse impact (PAI) indicators during the investment-decision process as follows:

PAI indicator	Integration process	Thresholds (when applicable)
<p>PAI 1 – GHG emissions</p>	<p>PAI 1 was considered as part of the Fund's managements of its WACI for its investments in corporate issuers.</p> <p>PAI 1 covers Scopes 1, 2, and 3 financed emission while the calculation of the WACI is based on Scope 1, and Scope 2 emissions expressed as revenue intensity of the issuer:</p> <ul style="list-style-type: none"> • Scope 1: direct emissions from the investee company's facilities; • Scope 2: indirect emissions linked to the investee company's energy consumption. <p>The WACI of the portfolio is assessed on an ongoing basis to help the Fund remain within the target level. This allows the investment adviser to measure the carbon footprint and carbon intensity of the portfolio compared to the selected Index, and to understand the attribution of the emission results.</p> <p>It is not the intention to automatically exclude higher carbon emitters on an individual basis as the carbon intensity is monitored at the total portfolio level rather than at the individual holding level.</p>	<p>Management of the carbon footprint (WACI) of its investment in corporate issuers that is generally at least 30% lower than the Index.</p>
<p>PAI 4 – Exposure to companies active in the fossil fuel sector</p>	<p>These PAIs were considered when the investment adviser evaluated and applied ESG and norms-based screening to implement exclusions on corporate issuers. To support this screening, it relied on third party provider(s) who identified an issuer's participation in or the revenue which they derived from activities that are inconsistent with the ESG and norms-based screens.</p>	<p>Exclusion of companies that generate over 10% of their revenue from oil sands extraction and/or Arctic oil production and/or from the production and/or distribution of thermal coal as identified through the relevant MSCI Maximum Percentage of Revenue factor name.</p>
<p>PAI 10 – Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</p>		<p>Exclusion of companies that, in the investment adviser's opinion, are violating the United Nations Global Compact (UNGC) principles.</p>
<p>PAI 14 – Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)</p>		<p>- Exclusion of companies that have any ties to controversial weapons: cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments. Companies are identified through the MSCI's Controversial Weapons– Any Tie factor name.</p> <p>- Exclusion of companies that generate any revenue from the production of nuclear weapons. Companies are identified through the MSCI's Weapons – Nuclear Maximum Percentage of Revenue factor name.</p>

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the "Fund")**

Legal entity identifier: **222100I2U5PFCXI5XS34**

PAI indicator	Integration process	Thresholds (when applicable)
		- Exclusion of companies that generate over 10% of their revenue from weapons systems, components and support systems and service. Companies are identified through the MSCI's Weapons- Maximum Percentage of Revenue factor name.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 December 2023**

Largest Investments	Sector	% Asset	Country
Microsoft	Information Technology	4.93	United States
Novo-Nordisk	Health Care	3.23	Denmark
Meta Platforms	Communication Services	2.65	United States
Broadcom	Information Technology	2.65	United States
TSMC	Information Technology	2.27	Taiwan
ASML	Information Technology	2.15	Netherlands
Tesla	Consumer Discretionary	2.07	United States
Eli Lilly	Health Care	1.79	United States
Alphabet	Communication Services	1.70	United States
AstraZeneca	Health Care	1.46	United Kingdom
LVMH	Consumer Discretionary	1.13	France
NVIDIA	Information Technology	1.04	United States
Caterpillar	Industrials	1.03	United States
Vertex Pharmaceuticals	Health Care	1.03	United States
Nestlé	Consumer Staples	1.00	Switzerland

The above breakdown of the Fund's top investments is based on the portfolio as at 31 December 2023.

What was the proportion of sustainability-related investments?

Please find information regarding the proportion of sustainability-related investments in the following sub-sections.

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

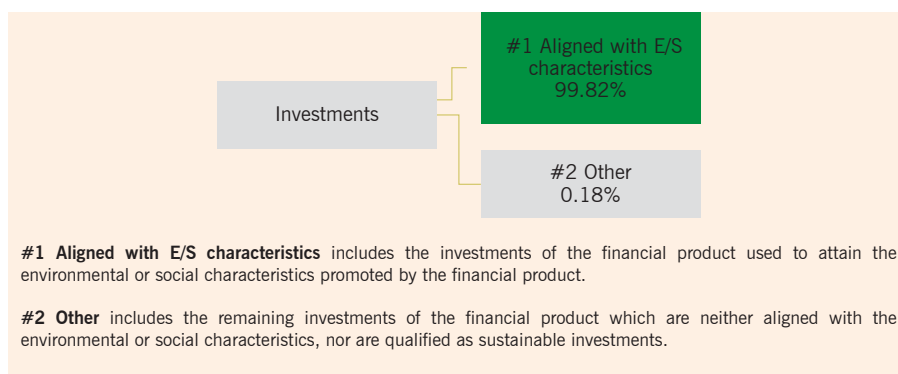

As at the 31 December 2023 the Fund invested 99.82% of its assets into issuers that attained the promoted E/S characteristics (#1) and 0.18% of the Fund's investments did not align with the E/S characteristics promoted by the Fund (#2).

Cash and/or cash equivalents were excluded from the asset allocation and were not considered to be used to attain the environmental or social characteristics promoted by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the “Fund”)**

Legal entity identifier: **222100I2U5PFCX15XS34**

In which economic sectors were the investments made?

The Fund invested in the following economic sectors:

Sector Breakdown	% Asset	Sector Breakdown (continued)	% Asset
Information Technology	22.02	Communication Services	7.41
Semiconductors & Semiconductor Equipment	9.80	Interactive Media & Services	4.79
Software	7.56	Entertainment	1.34
IT Services	1.98	Media	0.33
Electronic Equipment Instruments & Components	1.24	Telecommunication Services	0.95
Communications Equipment	0.72	Consumer Staples	5.10
Technology Hardware Storage & Peripherals	0.71	Food Products	2.42
Health Care	16.18	Beverages	1.09
Pharmaceuticals	8.46	Consumer Staples Distribution & Retail	0.93
Biotechnology	3.31	Personal Care Products	0.43
Life Sciences Tools & Services	1.63	Household Products	0.24
Health Care Equipment & Supplies	2.70	Materials	4.79
Health Care Providers & Services	0.08	Chemicals	3.84
Consumer Discretionary	13.22	Metals & Mining	0.94
Hotels Restaurants & Leisure	5.26	Energy	3.16
Textiles Apparel & Luxury Goods	2.88	Oil Gas & Consumable Fuels	2.43
Automobiles	2.64	Energy Equipment & Services	0.73
Automobile Components	0.06	Utilities	0.71
Broadline Retail	1.41	Multi-Utilities	0.58

Passenger Airlines	0.54		
Commercial Services & Supplies	0.81		
Professional Services	0.80		

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waster management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Capital Group New Perspective Fund (LUX) (the “Fund”) **Legal entity identifier:** 222100I2U5PFCX15XS34

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund promoted environmental characteristics within the meaning of Article 8 of the SFDR, its commitment to make “environmentally sustainable investments” within the meaning of the Taxonomy Regulation was set at 0% (including in transitional and enabling activities). However, during the reference period, the Fund held investments that were aligned with the EU Taxonomy and the percentages of those investments by Turnover, CapEx and OpEx are detailed below.

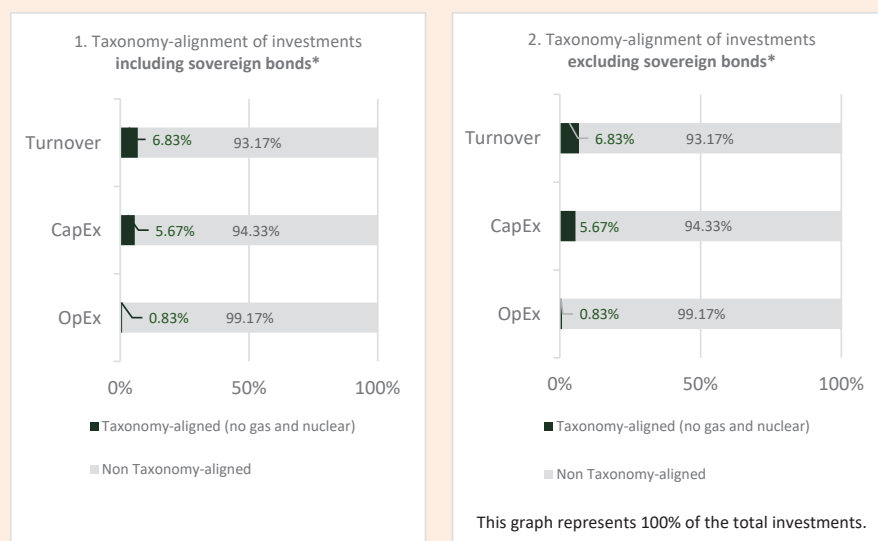

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁴?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Percentages in the above table are calculated excluding cash and/or cash equivalents.

⁴ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the "Fund")** Legal entity identifier: **222100I2U5PFCX15XS34**

● **What was the share of investments made in transitional and enabling activities?**

The Fund does not commit to minimum share of investments in transitional and enabling activities, however the share of investment in such activities within the meaning of the EU Taxonomy are shown below. Investments that are aligned with the EU Taxonomy are incidental and are not an objective pursued by this Fund.

Indicator	Enabling (%)	Transitioning (%)
Turnover	6.72%	0.00%
CapEx	5.05%	0.04%
OpEx	0.52%	0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund promoted E/S characteristics and did not make any sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

The investments under the category #2 "Other" consists of a previously eligible issuer that subsequently failed an appropriate screen and no longer contributes towards the E/S characteristics of the Fund. These investments will generally be sold within six months from the date of such determination, subject to the best interests of investors in the Fund.

The asset allocation calculation that categorises the investments into #1 Aligned with E/S characteristics and #2 Other excludes cash and cash equivalents. Cash and cash equivalents were held for liquidity purposes to support the Fund's overall investment objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Capital Group New Perspective Fund (LUX) (the “Fund”)**

Legal entity identifier: **222100I2U5PFCX15XS34**

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The environmental and/or social characteristics of the Fund are based on the Exclusion Policy, subsequently renamed Negative Screening Policy, and carbon target (WACI) that is applied. The investment adviser identified certain issuers or groups of issuers that it excluded from the portfolio in order to promote the E/S characteristics promoted by the Fund.

The Fund applied investment restrictions rules on a pre-trade basis in portfolio management systems to prohibit investment in companies or issuers based on the exclusion criteria. The Fund also underwent regular/systematic post-trade compliance checks performed by Capital Group’s independent guideline monitoring function.

When the monitoring function identifies previously eligible issuers that subsequently failed an appropriate screen and the investment no longer tributes towards the E/S characteristics of the Fund, the Investment adviser will look to sell the issuer within six months from the date of such determination, subject to the best interests of investors in the Fund.

The investment adviser also monitored the WACI of the Fund, compared to that of its selected Index, on an ongoing basis to ensure the Fund met its target of being 30% below the Index. The investment adviser also regularly engages in dialogue with companies on corporate governance issues.

How did this financial product perform compared to the reference benchmark?

Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
